Due to popularity we have split our Brain Games into 3 programs, by level of difficulty:

1. **Memory Practice:** For those experiencing some memory issues who want an opportunity to engage in activities that will stimulate cognitive resilience and create a brain fitness routine, in a lower pressure environment. Those living with dementia welcome and encouraged to participate.
2. **Brain Games:** Call in for an hour of mind tingling fun! Try some word games and mental exercises with us to challenge your brain with our Recreation Therapists.
3. **Mind Challenge:** Ready for the next level of our brain games? Research shows that exercising our brain has many benefits, including: improves concentration, boosts brain activity and enhances memory and processing speed.

Caregivers Support Group: In conjunction with Caregivers Alberta, we will be offering support for caregivers within their own home. Topics will range from education, to support and a chance to share your experience and seek advice. Upon registration we will give *special directions on how to participate by phone*.

It is a great opportunity for anyone with COPD who has barriers to attending a pulmonary rehab program in person. It is also open to those who have previously attended a pulmonary rehab program and would like a refresher.

Edmonton Pride Seniors: For older people who identify as LGBTQ2S, or are concerned about their welfare and working towards creating inclusive spaces and affirming care.
