

Reduce Your Risk:

Construction Health & Safety During COVID-19

Protect yourself and others

Go home if you have an unexplained recent symptom such as cough, fever, shortness of breath, runny nose, sneezing or sore throat

Frequently wash your hands or use hand sanitizer (with 60% alcohol)

Maintain physical distance of 2 meters/6 feet from others whenever possible

Avoid touching your eyes, nose and mouth

When required to work within 2 meters/6 feet with others, wear N95 particulate respirator or similar mask and disposable gloves

Ensure the site is separated from the public by 2 meters /6 feet or a non-permeable barrier is in place (solid construction hording or construction fencing covered with scrim)

Stagger your breaks and limit gatherings

Clean and disinfect your gear regularly and wash your clothing daily

Clean and disinfect equipment and vehicles after each use with a clean cleaning cloth saturated with disinfectant and wipe all surfaces touched
